Ft. Lauderdale Classes - 800 W Cypress Creek Rd, Suite 200 Ft. Lauderdale, FL 33309

11/30/2009 - 12/17/2009

233566 Interconnecting Cisco? Network Devices (CCNA?) [CCNA NIGHTTIME]

This course focuses on providing the skills and knowledge necessary to install, operate, and troubleshoot a small branch office Enterprise network, including configuring a switch, a router, and connecting to a WAN and implementing network security. A Student should be able to complete configuration and implementation of a small branch office network under supervision.

Mon-Thurs 6:00pm-10:00pm

Room 2

11/30/2009 - 12/18/2009

233578 Network+ -(NWT) [NWTNIGHTTIME]

The CompTIA Network+® (2009 Objectives) course builds on your existing user-level knowledge and experience with personal computer operating systems and networks to present fundamental skills and concepts that you will use on the job in any type of networking career. If you are pursuing a CompTIA technical certification path, the CompTIA A+ certification is an excellent first step to take before preparing for the CompTIA Network+ certification.

M-W-F 6:00pm-10:00pm

Room 2

1/11/2010 - 2/18/2010

231828 MCTS/MCITP: SERVER 2008 Level II [MCTS/MCITP08II]

The Academy MCITP: Windows Server 2008 Program is the most effective, efficient way to learn how to successfully design, plan and implement a network infrastructure, Active Directory infrastructure, Virtualized infrastructure and client deployment on the Windows Server 2008 platform, with a consistent focus on Hyper V (Virtualization) in the enterprise.

Mon-Thurs 6:00pm-10:00pm

Room 3

1/11/2010 - 2/25/2010

232008 MCTS/MCITP: SERVER 2008 Level I [MCTS/MCITP08I]

The Academy MCITP: Windows Server 2008 Program is the most effective, efficient way to learn how to successfully design, plan and implement a network infrastructure, Active Directory infrastructure, Virtualized infrastructure and client deployment on the Windows Server 2008 platform, with a consistent focus on Hyper V (Virtualization) in the enterprise.

Mon-Thurs 6:00pm-10:00pm

Room 3

Miami Classes - 3100 South Dixie Highway, Suite 100 Miami, FL 33133

11/30/2009 - 12/18/2009

230216 Network+ -(NWT) [NWTNIGHTTIME]

The CompTIA Network+® (2009 Objectives) course builds on your existing user-level knowledge and experience with personal computer operating systems and networks to present fundamental skills and concepts that you will use on the job in any type of networking career. If you are pursuing a CompTIA technical certification path, the CompTIA A+ certification is an excellent first step to take before preparing for the CompTIA Network+ certification.

Room 4A

12/7/2009 - 12/22/2009

230735 Application Architect Program Level III: SharePoint [AAPIII: SharePoint]

The Technology Specialist certifications enable professionals to target specific technologies and distinguish themselves by demonstrating in-depth knowledge of and expertise in the technologies with which they work.

Mon-Thurs 6:00pm-10:00pm

Room 4B

1/11/2010 - 1/28/2010

230731 Interconnecting Cisco? Network Devices (CCNA?) [CCNA NIGHTTIME]

This course focuses on providing the skills and knowledge necessary to install, operate, and troubleshoot a small branch office Enterprise network, including configuring a switch, a router, and connecting to a WAN and implementing network security. A Student should be able to complete configuration and implementation of a small branch office network under supervision.

Mon-Thurs 6:00pm-10:00pm

Room 3B

1/11/2010 - 2/18/2010

230753 MCTS/MCITP: SERVER 2008 Level II [MCTS/MCITP08II]

The Academy MCITP: Windows Server 2008 Program is the most effective, efficient way to learn how to successfully design, plan and implement a network infrastructure, Active Directory infrastructure, Virtualized infrastructure and client deployment on the Windows Server 2008 platform, with a consistent focus on Hyper V (Virtualization) in the enterprise.

Mon-Thurs 6:00pm-10:00pm

Room 2

1/11/2010 - 2/25/2010

234360, 234382, 232182 MCTS/MCITP: SERVER 2008 Level I [MCTS/MCITP08I]

The Academy MCITP: Windows Server 2008 Program is the most effective, efficient way to learn how to successfully design, plan and implement a network infrastructure, Active Directory infrastructure, Virtualized infrastructure and client deployment on the Windows Server 2008 platform, with a consistent focus on Hyper V (Virtualization) in the enterprise.

Mon-Thurs 8:00am-12:00pm

Room 1

Mon-Thurs 1:00pm-5:00pm

Room 1

Mon-Thurs 6:00pm-10:00pm

Room 1

1/11/2010 - 2/4/2010

233077 Application Architect Program Level I: SQL 2005 [AAPI: SQL 2005]

The Technology Specialist certifications enable professionals to target specific technologies and distinguish themselves by demonstrating in-depth knowledge of and expertise in the technologies with which they work.

Microsoft Certified Technology Specialists in SQL Server 2005 (MCTS: SQL Server 2005) implement and maintain databases using specific instructions and specifications. They have thorough knowledge of the product, understand how to use the tools and Transact-SQL language, and know how to navigate the user interface.

Mon-Thurs 6:00pm-10:00pm

Room 4B

12/7/2009 – 12/21/2009

235743 CompTIA A+ 2009 Essentials [A+ 2009 Essentials]

If you are getting ready for a career as an entry-level information technology (IT) professional or personal computer (PC) service technician, the CompTIA® A+® Certification course is the first step in your preparation. The course will build on your existing user-level knowledge and experience with personal computer software and hardware to present fundamental skills and concepts that you will use on the job. In this course, you will acquire the essential skills and information you will need to install, upgrade, repair, configure, troubleshoot, optimize, and perform preventative maintenance of basic personal computer hardware and operating systems.

Mon-Thurs 6:00pm-10:00pm

Room 4A

1/11/2010 - 1/29/2010

233583 CompTIA A+ 2009 Essentials [A+ 2009 Essentials]

If you are getting ready for a career as an entry-level information technology (IT) professional or personal computer (PC) service technician, the CompTIA® A+® Certification course is the first step in your preparation. The course will build on your existing user-level knowledge and experience with personal computer software and hardware to present fundamental skills and concepts that you will use on the job. In this course, you will acquire the essential skills and information you will need to install, upgrade, repair, configure, troubleshoot, optimize, and perform preventative maintenance of basic personal computer hardware and operating systems.
